**RE: Routt County Restaurant Variance Request**

Dear Ms. Ryan,

As the Routt County Commissioners and Board of Health, we would like to formally request a Variance for Restaurants in our community. Our Routt County Department of Public Health is submitting all the necessary documentation on our behalf.

Routt County has not had a positive case identified since April 30<sup>th</sup> and our total number of cases is 58. Our community has been vigilant in taking preventative measures like social distancing and the wearing facial coverings. Our public messaging has emphasized the Five Commitments to Containment, like many other counties.

We are also very supportive of what the Steamboat Restaurant Association has done to develop mitigation strategies to protect both customers and employees. As you know, the restaurant industry is accustomed to health and safety mitigation and sanitation and are regulated by your department. They have a unique ability to place customers in set locations to maintain social distancing and manage this adequately.

This Variance will be closely monitored by our local Environmental Health Department which has been the cooperating regulator of restaurant inspections since around 1995.

We appreciate your swift review of this variance request.

Sincerely,  
Tim Corrigan, Beth Melton, Doug Monger
