I just heard that 2 cases fell through the cracks this week, and they were attributed retroactively. Never included in your 7 day moving average. A perfect example of what I was saying.

I heard one was added back to Aug17th in the meeting.. when was the other one added back? (A researcher here has just informed me it was another on aug21st)

They never counted.

As the transition street between the downtown and the adjacent residential neighborhood, Oak is a mixture of commercial, shopping, civic and residential uses.

OAK STREET

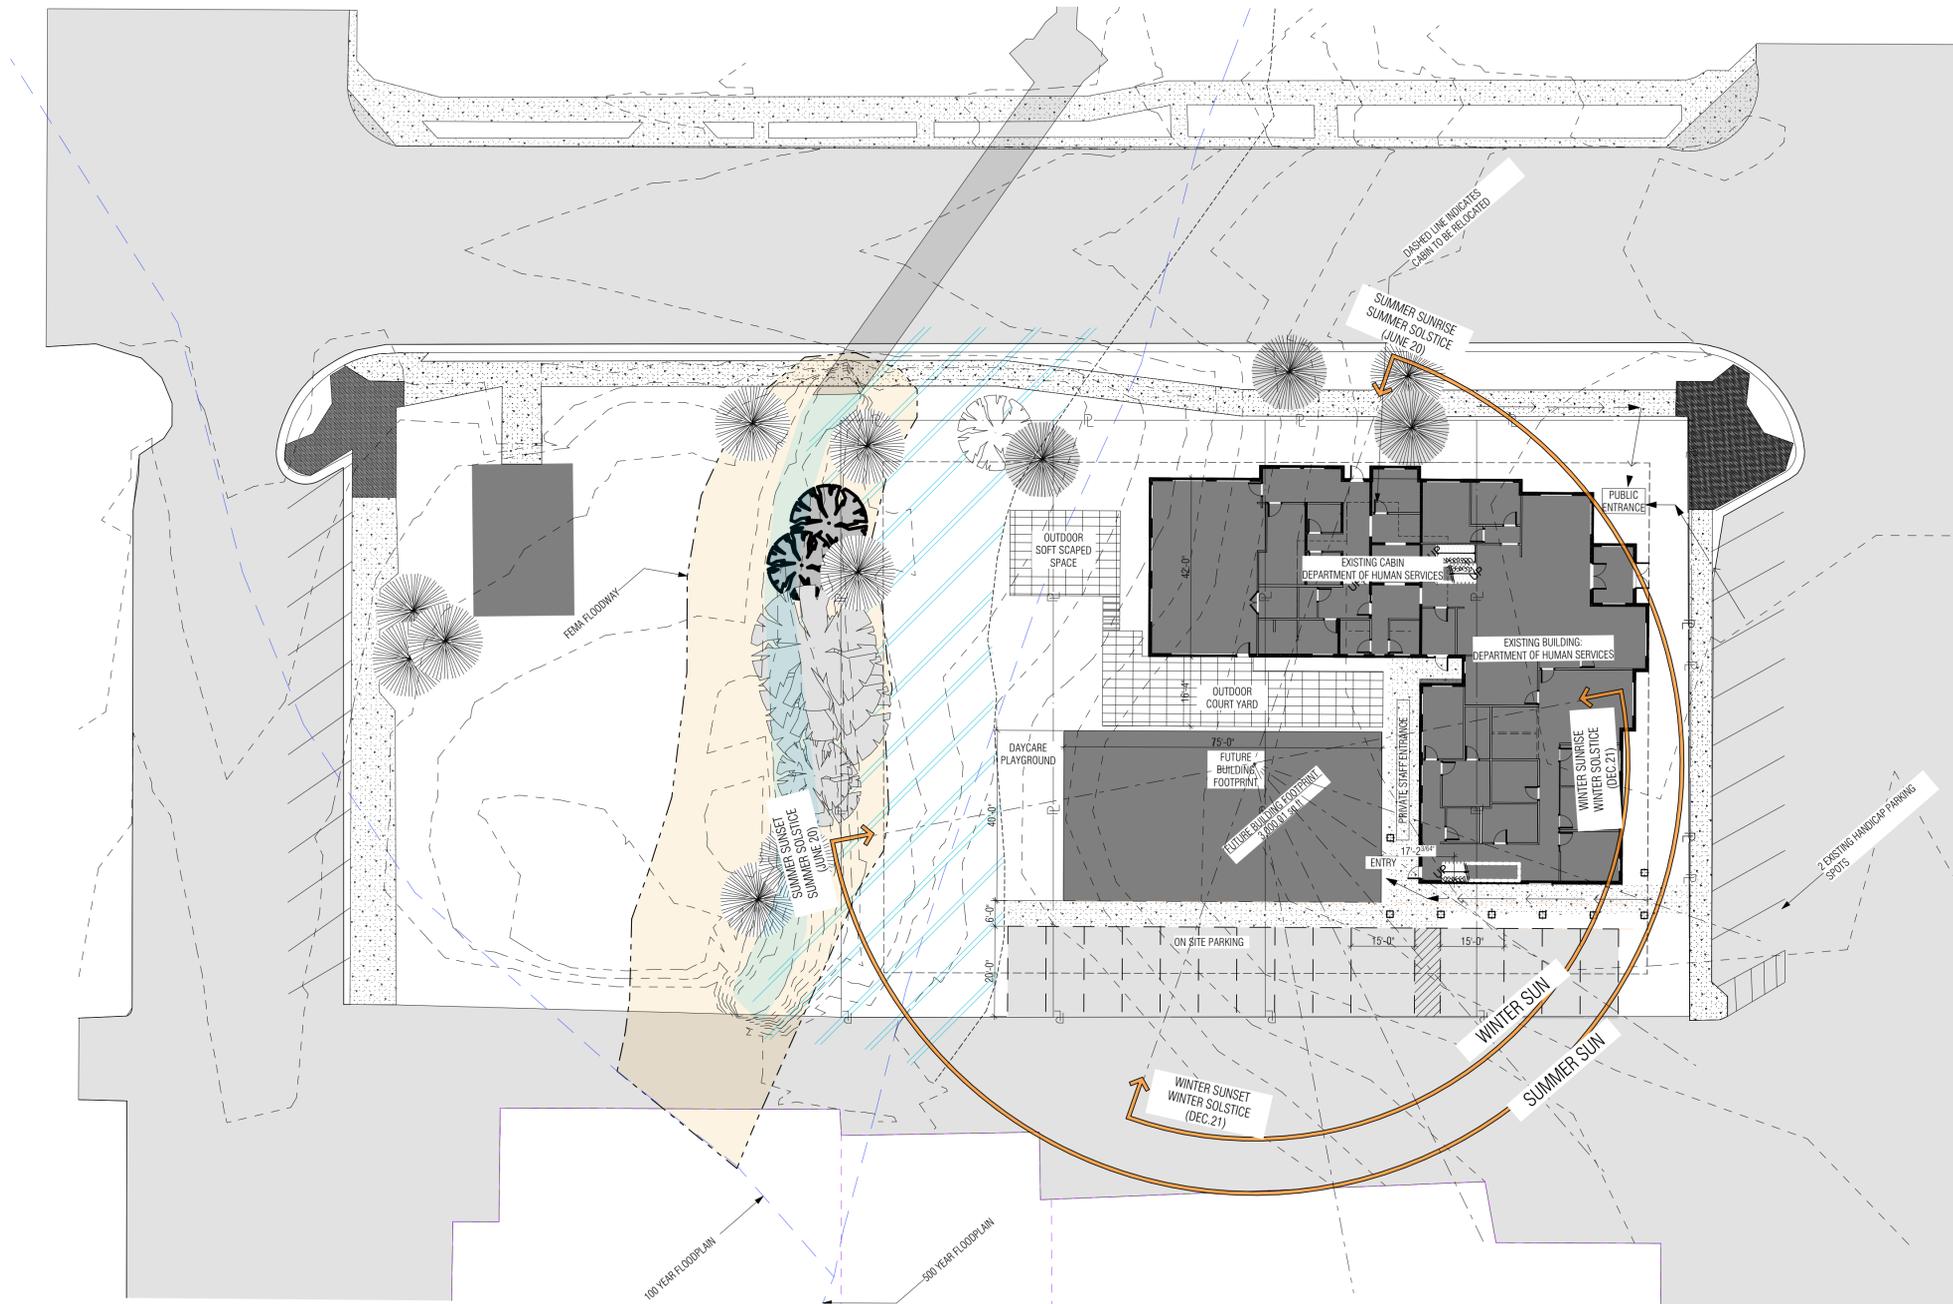

In order to create a more residential and 'local' feel along Oak, the streetscape design is very green with detached walks and tree lawns, extensive planting beds, and a meandering sidewalk alignment that preserves existing mature, healthy trees.

Overall, the design of Oak Street creates a distinct downtown experience that responds to the adjacent neighborhood. Oak Street is green, informal, relaxed and eclectic, while still acknowledging a need for commercial-type visibility and access for businesses, shops and restaurants.

GENERAL NOTES:

1. An automatic Irrigation System is required for all landscape areas and tree grades.
2. Electric service is required for all seat wall lights, tree wells, and pedestrian lights.
3. All features are to be placed a minimum of 2' (two feet) behind the back of curbs.
4. All street features shall be spaced a minimum of 6' (six feet) apart for ADA access.

- Oak - GREEN, NEIGHBORLY, LOCAL**
- Oak is a transition street, and the boundary between the downtown and its adjacent residential neighborhoods
 - Oak is a transition street with more grass landscaping
 - Oak reflects the 'local' neighborhood feel of Downtown Steamboat Springs

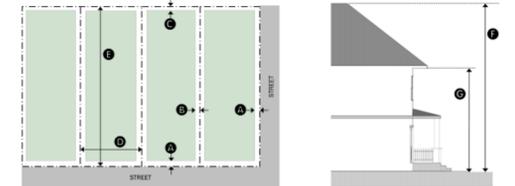

CK-2 Commercial Oak - Two

§ 221

221 ZONE DISTRICT: COMMERCIAL OAK - TWO

221A Purpose
The Commercial Oak zone districts are intended to provide areas along Oak Street for low-intensity commercial uses, such as office and limited retail and service. These zone districts are also intended to provide for vertical and horizontal mixed-use development that incorporates residential densities and forms compatible with permitted commercial uses. Commercial Oak accommodates uses and development that are complementary to and compatible with the surrounding neighborhood in terms of scale and intensity, as well as provide a buffer or transition between the Commercial Old Town zone district and the Old Town residential neighborhood.
