## AGENDA COMMUNICATION FORM

### V. BACKGROUND INFORMATION:

Colorado’s dial framework standardizes different levels of “openness” at the county level. It is a tool for counties to use to make life during the pandemic more sustainable, allowing us to balance, to the greatest extent possible, controlling the virus with our social and economic needs.

- Colorado’s dial framework has five levels to guide county response to COVID-19.
- Counties move back and forth between levels, depending on three metrics.
- Levels are based on the number of new cases, the percent positivity of COVID tests, and the impact on hospitals, and local considerations. As the dial moves left, toward Protect Our Neighbors, more people can participate in various activities.
- This framework gives communities a new tool to make life in the pandemic more sustainable.
