RE: Support for City of Steamboat Springs US40 West Pedestrian Connection
Phase III Trail Extension

To Whom it May Concern:

This letter is to state support and participation from Routt County as a partner with the City of Steamboat Springs's grant application. The City's Core Trail runs through the city primarily along the Yampa River, and this project extends the trail into the unincorporated area of Routt County. As currently proposed, this effort will extend the Core Trail to the west providing pedestrian and bicycle connectivity along a stretch of US40 to the Steamboat II and Silver Spur subdivisions outside the City limits. Routt County is excited to partner in supporting this project to increase multi-modal transportation options to our residents.

We understand that the City of Steamboat Springs is committed to meeting the matching requirement, and we are committed to joining the other potential partners. Routt County believes that Steamboat Springs has put together a project that meets all of the funding requirements and goals and we are excited to support the grant application in whatever way we can. Thank you for considering the project.

Sincerely,

ROUTT COUNTY BOARD OF COUNTY COMMISSIONERS

M. Elizabeth Melton, Chair
