Subject: FW: Locker utilization by the school system.

Hi Julie,

Please see email below. Per attached county disposal policy I am notifying you of a request from Deputy Paul Yonekawa of donation to the school theater program the old unused sheriffs lockers that are slated for disposal. These lockers are of no further use to Routt County due to the building of the new Law Enforcement Facility. They are currently slated for recycle to Axis Steel in Craig. Our Department supports the donation to the school theater program.

Please advise,

Steve Faulkner / Facilities Manager
Routt County Public Works Department
136 6th Street, Suite 108

Subject: Locker utilization by the school system.

Regarding our conversation on 01/08/2020, I spoke with representatives of the theater program at the Steamboat Springs High School, they are very interested in salvaging the old Sheriffs lockers that are slated for disposal. They have an upcoming performance that takes place in a school setting so the lockers would be ideal as props. The lockers would be used following the play by the theater department for storage and securing tools, costumes and props. If you could follow up on this request I would be grateful. If you need, I can have theater instructors make a written request on behalf of the school.

As you might be aware, the theater at the high school is utilized by all grades of the school district. I believe this can be a generous show of support for our school system and community as a whole while utilizing discarded items destined for the scrap yard.

Thank you for the follow up.

Deputy Paul Yonekawa
